Subject: RE: (FIFRA - FY18-162620-3710-CV) Referred to Region - South Dakota

Sherrie and Richard,

We are currently investigating this alleged complaint. The incident took place on July 12th and our inspector started the investigation on July 13th. We are currently waiting on sample results from the lab. The lab is delayed with all of the Dicamba issues this year. (b) (6) has contacted the SD Department of Agriculture, Secretary Mike Jaspers. Secretary Jaspers has responded with a letter to (b) (6). We have asked the lab to speed up her sample results. The complaint in July did not involve people, pets or animals at least what she communicated to our inspector.

Thanks,
